Subject: NCI Bid Board Posting – Scientific Equipment

The Center for Cancer Research (CCR) is the largest division of the National Cancer Institute (NCI) intramural research program. The mission of CCR is to improve the lives of all cancer patients by solving important, challenging and neglected problems in cancer research and patient care through a world-leading basic, translational and clinical research and patient care program. An institutional focus on high-risk and long-term projects, unmet needs, and pursuit of unexplored ideas. Research to eliminate cancer health disparities. Leadership and coordination of national disease networks and development of technology resources for the cancer community. Partnerships with academic institutions, commercial entities and patient advocacy groups.

The CCR seeks to procure one (1) MVE HECO 815P-190AF-BB-TS; Twelve (12) 12/2 Stainless Steel Vertical Freezer Rack with Locking Rod.

The National Cancer Institute plans to purchase one (1) MVE HECO 815P-190AF-BB-TS; Twelve (12) 12/2 Stainless Steel Vertical Freezer Rack with Locking Rod from Cryo. This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine is the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on March 4, 2021 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement.

Sole Source Justification:

The liquid nitrogen tank must be provided by Cryo as to match other support Cryo tanks in use.
