Subject: NCI Bid Board Posting – Tuition for specialized PhD program

The Women's Malignancies Branch (WMB) is committed to developing new treatments for patients with breast and gynecologic malignancies in order to improve the outcomes for patients with these diseases. The members of WMB conduct basic and translational research and integrate laboratory research findings into hypothesis-driven clinical trials for these malignancies. We encourage patients to explore our website and contact us for questions related to our research and clinical trial opportunities.

The National Cancer Institute plans to purchase Tuition for specialized PhD program from Howard University. This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine is the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on September 4, 2021 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement.

Sole Source Justification:

He applied to University of Florida, Mercer University, University of George and Howard University. The criteria was stringent in all universities, but got accepted at Howard.
