Subject: NCI Bid Board Posting – Service Agreement

At the National Cancer Institute (NCI), The Laboratory of Pathology (LP) is an integral component of the research and clinical community. Our goal is to be a globally recognized center of excellence in disease research, clinical diagnostics, and pathology education. The mission of the Laboratory of Pathology is to achieve the highest level of quality in research, diagnostics, and education. We support the research mission of the NCI by investigating the biology and genetics of cancer and other diseases, developing and applying leading edge technology to diagnostic pathology, providing collaborative support for clinical research protocols In this endeavor, we value scientific originality, integrity, and productivity while maintaining the highest level of ethical principles..

The National Cancer Institute plans to purchase Service Agreements for (SN: 237) BioView Automated Scanner and BioView Solo Offline Workstations from BioView USA Inc. This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine is the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on July 24, 2021 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement.

Sole Source Justification:

The unique features of the BioView Automated Scanning system. This equipment is manufactured configured by BioView engineers. It has unique characteristic and design which allows only trained and qualified engineers to do proper maintenance and diagnostic of the system performance. In addition, only Bioview provides hardware and software support and updates for this system.
