DOWN HOME HEALTHY COOKING

Recipes and tips for healthy cooking.
African Americans suffer from higher rates of serious diseases like high blood pressure, Type 2 diabetes, heart disease and some types of cancer. African Americans suffer more serious health problems and die at an earlier age from these diseases. The good news is that eating a healthy diet and leading an active lifestyle promote good health and lowers the chances for getting these illnesses.

A healthy diet includes fruits and vegetables, whole grains, fat-free or low-fat milk products, lean meats, fish, beans, eggs, and nuts. A healthy diet is also low in saturated fat, trans fat, cholesterol, salt and added sugars.

Everyone has the power to make choices to improve his/her health. And eating right doesn’t mean giving up our wonderful soul food. In fact, the basic staples of traditional soul food include lots of healthy vegetables: dark leafy greens, sweet potatoes, and high-fiber black eyed peas just to name a few. But they are often cooked with ingredients that add too much saturated fat, calories and salt to our diet.

By making a few simple changes, you and your loved ones can enjoy the flavors of healthy down home cooking. The recipes and hints in this cookbook will help you get started.

* Sometimes less tender cuts of meat like round or rump need marinating. To add flavor and tenderize, use an oil-free marinade. Place meat and marinade in a plastic bag and marinate for 1 to 2 hours in the refrigerator. Throw away the marinade. Don’t use it for basting while cooking the meat.

NOW THAT THE PANTRY IS STOCKED, HERE ARE SOME HEALTHY COOKING TECHNIQUES:

- Steam your vegetables whenever you can. Use garlic, onions, and herbs for flavor. Use very small amounts of butter, cheese, and sauces.
- Use more herbs and spices to flavor greens and other dishes. Cut down on the salt. Try adding Spanish onion and black pepper to black-eyed peas.
- Always use low-fat (1% or 2%) or skim milk for cooking instead of whole milk or cream.
- Put away that deep fat fryer. Try boiling, roasting, baking, grilling, braising, or stir-frying with a little oil instead.

SUCCHOTASH

1. Combine lima beans, margarine, corn, tomatoes, onions, Tabasco sauce, salt, and pepper in a pan.
2. Bring to a boil, reduce heat, and simmer for 20 minutes.
3. Add okra and cook for 10 more minutes.

This recipe is packed with fiber. Fiber is the part of plant foods that your body can’t digest. Beans, most fruits and vegetables, whole grain products, and nuts and seeds are good sources of fiber. Soluble fiber can help lower cholesterol. It also slows down digestion so that the body can absorb more nutrients and better control blood sugar levels. Insoluble fiber helps you get rid of waste and keeps you regular.

INGREDIENTS

- 10-ounce baby lima beans (frozen)
- 2 tablespoons margarine (such as Promise™ 60% spread)
- 10-ounce whole kernel corn (frozen)
- 10-ounce cut okra
- 15-ounce canned tomatoes (undrained)
- ½ cup chopped onions
- Tabasco sauce to taste
- Salt and black pepper to taste

NEW ORLEANS RED BEANS

INGREDIENTS

1 lb dry red beans
2 quarts water
1½ cups chopped onion
1 cup chopped celery
4 bay leaves
1 cup chopped sweet green pepper
3 tablespoons chopped garlic
3 tablespoons chopped parsley
2 teaspoons dried thyme, crushed
1 teaspoon salt
1 teaspoon black pepper

1 Pick through beans to remove bad beans; rinse thoroughly. In a 5-quart pot, combine beans, water, onion, celery, and bay leaves. Bring to boiling; reduce heat. Cover and cook over low heat for about 1½ hours or until beans are tender. Stir and mash some of the beans against side of the pan to thicken the mixture.

2 Add green pepper, garlic, parsley, thyme, salt, and black pepper. Cook, uncovered, over low heat until creamy, about 30 minutes. Remove bay leaves.

3 Serve over hot, cooked brown rice, if desired.
MIXED GREENS

1 Rinse greens well, removing stems. In a large pot of boiling water, cook greens rapidly, covered, over medium heat for about 25 minutes or until tender.

2 Serve with some of the pot liquor (liquid from the cooked greens). If desired, cut greens in pan with a sharp knife and kitchen fork before serving.

Beet greens like collards, mustard and turnip greens are a good source of potassium which helps maintain healthy blood pressure. Potassium counteracts the effect of sodium on blood pressure. Too much sodium causes the blood pressure to rise. Dark green leafy vegetables are naturally high in potassium and low in sodium.

INGREDIENTS

2 bunches mustard greens or kale
2 bunches turnip greens
pepper to taste (optional)
1 teaspoon salt, or to taste (optional)
GARLIC
MASHED POTATOES

INGREDIENTS

1 lb potatoes (2 large)
2 cups skim milk
2 large cloves garlic, chopped
½ teaspoon white pepper

1 Peel potatoes; cut in quarters. Cook, covered, in a small amount of boiling water for 20 to 25 minutes or until tender. Remove from heat. Drain. Cover the pot.

2 Meanwhile, in a saucepan over low heat, cook garlic in milk until garlic is soft, about 30 minutes.

3 Add milk-garlic mixture and white pepper to potatoes. Beat with an electric mixer on low speed or mash with a potato masher until smooth.

Use low-fat (1% or 2%) or nonfat/skim milk instead of whole milk.
