Subject: NCI Bid Board Posting – Fetal Bovine Serum-Heat Inactivated LOT#21682 for LTIB.

The Lab of Tumor Immunology & Biology (LTIB) functions as an integrated translational research program, which designs and develops novel immunotherapeutic and immunologic strategies for cancer treatment and prevention. Fetal Bovine Serum (FBS) is required for maintaining cell populations used for LTIB immunotherapy in vitro experiments and must remain uniform across experiments to ensure reproducibility.

This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine if the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on August 5, 2021 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement.

**Sole Source Justification:**

The laboratory would like to purchase a large lot 75 bottles of a remaining lot that has been tested and used previously in the LTIB. These results have been exceptional, and this lot of sera will enable the probability of introducing new variables in the experimental results. Changing the variables now would result in incorrect interpretation of the immune assays in progress. We want to keep the continuity and reproducibility of ongoing experiments. The below chart lists the companies tested and the company/lot of serum that performed at the highest level of T-cell proliferation is highlighted.

6. **FAR Statute: 13.106-1 (b)(1)**

(b) Soliciting from a single source.

(1) For purchases not exceeding the simplified acquisition threshold, Contracting Officers may solicit from one source if the Contracting Officer determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, or industrial mobilization).

7. **Market research:** There are other vendors that provide this product, however, the product lot requested has been test previously and used in our studies and if the product is changed,

which means a new product lot, it could change the ongoing study results. Its extremely important to maintain continuity of these experiments.

**8. Check and fill in all that are applicable:**

The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. The current equipment is <insert description of current equipment>, and the new item/service must coordinate, connect, or interface with the existing system by <insert description of how the new item/service must coordinate or interface>.

A patent, copyright, proprietary data, or licensing agreement limits competition. The proprietary data are described as follows:

*<Insert description>*

These are "direct replacement" parts/components for existing equipment.

Other information to support a sole-source buy:

*<Insert any additional information that supports this sole-source acquisition>*

**CERTIFICATION**

I certify that statements checked and information provided above are complete and correct to the best of my knowledge. In accordance with FAR 13.106-1(b)(1), the processing of this sole-source justification precludes the use of full and open competition.

This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance.
