Subject: NCI Bid Board Posting – Service Agreement for Ventana Benchmark Ultra Immunostainer

The National Cancer Institute (NCI), The Laboratory of Pathology (LP) is an integral component of the research and clinical community. Our goal is to be a globally recognized center of excellence in disease research, clinical diagnostics, and pathology education. The mission of the Laboratory of Pathology is to achieve the highest level of quality in research, diagnostics and education. We support the research mission of the NCI by investigating the biology and genetics of cancer and other diseases, developing and apply leading edge technology to diagnostic pathology, providing collaborative support for clinical research protocols in this endeavor, we value scientific originality, integrity, and productivity while maintaining the highest level of ethical principles.

The primary objective of the service agreement is to guarantee timely maintenance and repair service for the Ventana Benchmark Ultra Immunostainer (SN 313421). This service is required through the manufacturer of said equipment for continued service to the facility to maintain the highest level of accuracy and equipment performance.

The National Cancer Institutes (NCI) plans to purchase service agreement for Ventana Benchmark Ultra Immunostainer (SN 313421) from Roche Diagnostics, Indianapolis, IN. This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine if the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on November 15, 2024 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose whether to conduct a competitive procurement.

Sole Source Justification:

Roche requires a Maintenance Service Contract be maintained on the Instruments for continued use as they are the manufacturer of this equipment. Original manufacturer service is required to avoid nullifying the warranty. Any equipment failure would adversely affect NCI/NIH clinical center patients and their optimal care. All vendors contacted declined service due to the patent rights of Roche Diagnostics. This item is proprietary, and no other vendor can provide this service. All services and parts cannot be duplicated or substituted, they must be the original.
