

Center to Reduce Cancer Health Disparities

CRCHD TRAINING AND CAREER DEVELOPMENT FUNDING OPPORTUNITIES

CRCHD provides funding opportunities for research training and career development of students and investigators from underrepresented racial and ethnic groups, individuals with disabilities, and individuals from disadvantaged backgrounds, and for involving minority institutions in cancer research, research training, education, and outreach.

TRAINING OPPORTUNITY	PURPOSE
HIGH SCHOOL AND UNDERGRADUATE	
PA-12-149 – Research Supplements to Promote Diversity in Health-Related Research	Improve the diversity of the research workforce by supporting and recruiting from groups that have been shown to be underrepresented in cancer and cancer health disparities research.
NCI Cancer Center Supplements for High School and Undergraduate Student Research Experiences (P30S)	Engage the scientific curiosity and promote the potential cancer research careers of promising high school and undergraduate students and take full advantage of the community outreach and research capabilities of NCI-supported Cancer Centers.
GRADUATE/PREDOCTORAL AND POSTDOCTORAL	
PA-12-149 – Research Supplements to Promote Diversity in Health-Related Research	Improve the diversity of the research workforce by supporting and recruiting from groups underrepresented in cancer and cancer health disparities research.
PA-11-112 – Ruth L. Kirschstein National Research Service Awards for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (F31)	Improve the diversity of the health-related research workforce by supporting the training of predoctoral students from diverse populations in biomedical, behavioral, social, clinical, or health services research.
Supplements to the NCI Cancer Education and Career Development Program (R25TS)	Provide opportunities for individuals underrepresented in cancer research at the pre- or postdoctoral level to be trained in cancer prevention and control, epidemiology, nutrition, and the behavioral and population sciences.
Supplements to the Ruth L. Kirschstein National Research Service Award Institutional Research Training Grant (T32S)	Support training opportunities for individuals underrepresented in cancer research at the pre- or postdoctoral level at qualified institutions.

Center to Reduce Cancer Health Disparities

POSTDOCTORAL AND INVESTIGATORS	
PA-12-149 – Research Supplements to Promote Diversity in Health-Related Research	Improve the diversity of the research workforce by supporting and recruiting from groups underrepresented in cancer and cancer health disparities research.
PA-12-150 – Supplements to Promote Re-Entry into Biomedical and Behavioral Research Careers	Help high-potential individuals re-enter an active biomedical and behavioral research career after absence due to family care.
PAR-12-050 – NCI Mentored Research Scientist Development Award to Promote Diversity (K01)	Target individuals with a research or health professional doctoral degree and from groups underrepresented in biomedical research.
PAR-12-051 – NCI Mentored Clinical Scientist Research Career Development Award to Promote Diversity (K08)	Enable trainees to acquire the research expertise needed to pursue a career in laboratory-based biomedical cancer research.
PA-12-052 – Mentored Patient-Oriented Research Career Development Award to Promote Diversity (K23)	Encourage research-oriented clinicians from underrepresented groups to develop independent research skills and gain experience needed to conduct patient-oriented research.
PAR-12-062 – NCI Transition Career Development Award to Promote Diversity (K22)	Provide an extended period of protected time and support for individuals who are advanced postdoctoral and/or newly independent research scientists from groups underrepresented in biomedical research.
INVESTIGATORS	
PAR-12-096 – Exploratory Grant Award to Promote Workforce Diversity in Basic Cancer Research (R21)	Improve the diversity of the research workforce by supporting eligible investigators from underrepresented groups to conduct research projects focused on the basic biology of cancer.
Supplements to Clinical Oncology Research Development Awards (K12S)	Support newly trained clinicians appointed by an institution for development of independent research skills and experience.
