Center to Reduce Cancer Health Disparities

NCI MENTORED CLINICAL SCIENTIST RESEARCH CAREER DEVELOPMENT AWARD TO PROMOTE DIVERSITY (K08)

Overview

This Funding Opportunity Announcement (FOA) is designed to promote career development of racially and ethnically diverse individuals who are underrepresented in health-related science and for those who are committed to a career in cancer health disparities, biomedical, behavioral, or translational cancer research.

Mechanisms of Support/Awards

The K08 award mechanism will be supported by this funding opportunity. The nature and scope of the K08 award program will vary by application, and the amounts provided by the participating ICs are not uniform; therefore, the size and duration of each award will also vary.

Research Objectives

The NCI Center to Reduce Cancer Health Disparities (CRCHD) recognizes a unique and compelling need to promote diversity in biomedical, behavioral, and translational cancer research. CRCHD expects efforts to diversify the workforce in these areas to lead to the recruitment of the most talented researchers from all groups.

The K08 award may be used by candidates with different levels of prior research training and at different stages in their career development. The program must be tailored to meet the individual needs of the candidate. Applicants may request 3 to 5 years of support; however, the actual duration of the award will depend upon the number of years of prior research experience, the demonstrated need for additional mentored

AT A GLANCE

Submission Deadlines: February 12; June 12; & October 12, yearly

Resubmission Deadlines:March 12; July 12; & November 12, yearly

Eligibility: Investigators from diverse backgrounds

Award Budget: Up to \$100,000 for salary and up to \$30,000 in research development support for 3 to 5 years

experience to achieve research independence, and the policy of NCI. Awards are not renewable and are not transferable from one PD/PI to another.

Allowable Costs

Salary: The total salary requested must be based on a full-time, 12-month staff appointment. The candidate must devote a minimum of 9 months (75% of full-time professional effort) to conducting health-related research. The remaining effort may be devoted to clinical, teaching, or other research pursuits and activities consistent with the objectives of the awarded grant.

Research Development Support: NCI will provide up to \$30,000 annually for research development support. These costs may be used for tuition and fees related to career development; research expenses, such as supplies, equipment, and technical personnel; travel to research meetings or training; and statistical services including personnel and computer time.

NCI MENTORED CLINICAL SCIENTIST RESEARCH CAREER DEVELOPMENT AWARD TO PROMOTE DIVERSITY (K08)

Eligibility Requirements

Any individuals from diverse populations that have been shown to be underrepresented in biomedical, behavioral, clinical, and/or social sciences are eligible. Such candidates include individuals from underrepresented racial and ethnic groups as well as individuals with disabilities with the skills, knowledge, and resources necessary to carry out the proposed research.

Review

Applications will be evaluated for completeness by the Center for Scientific Review Group, NIH. Reviewers will provide an overall impact/priority score to reflect their assessment of the likelihood that the candidate will maintain a strong research program in consideration of the five core review criteria and additional review criteria. An application does not need to be strong in all categories to have a major impact. Review assignments will be shown in the eRA Commons.
