# CRCHD: Diversity-Focused Training and Cancer Health Disparities Research Opportunities

Alison Lin, PhD Deputy Chief, Diversity Training Branch NCI Center to Reduce Cancer Health Disparities

#### NCI Center to Reduce Cancer Health Disparities Programs

## Diversity Training

#### **Partnerships**

 Partnerships to Advance Cancer Health Equity (PACHE)

### **Cancer Health Disparities Research**

- Basic research
- Translational research

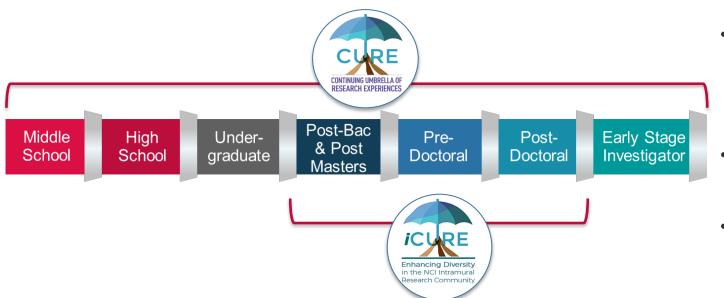

#### **Networks**

- Geographic
   Management of Cancer
   Health Disparities
   Program (GMaP)
- National Outreach Network (NON)

#### **NCI** Diversity-Focused Training Programs

**Extramural**: Continuing Umbrella of Research Experiences (CURE)

- Support research experiences of underrepresented students and scientists
- Promote professional and career development
- Help the trainees achieve research independence

Intramural: Intramural Continuing Umbrella of Research Experiences (iCURE)

### More Than a Pipeline: CURE and iCURE Provide an Ecosystem of Support

**Professional** Development Workshop

GMaP: In-Region Connections

Virtual

**Platforms** 

**Mock Review** 

Mentored Research **Experience** 

Navigation of Trainees

**Assistance** Workshop

**Technical** 

#### Extramural: Continuing Umbrella of Research Experiences (CURE)

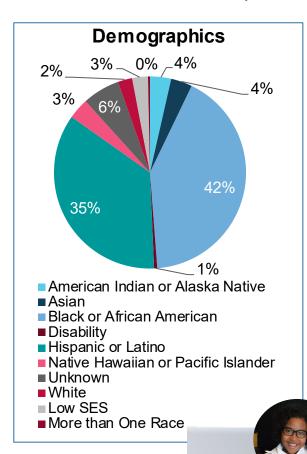

**Focused on enhancing diversity:** Trainees must be US citizen, non-citizen nationals or permanent resident

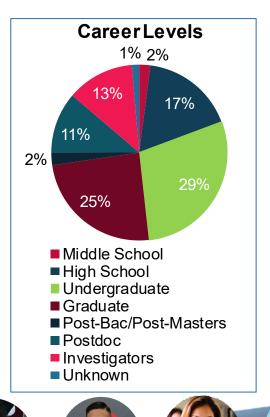

Race/Ethnicity

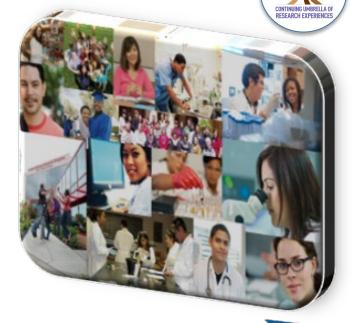

Disability

Disadvantaged Background

CURE Trainees (2001-2018, n = 4,753) are Diverse

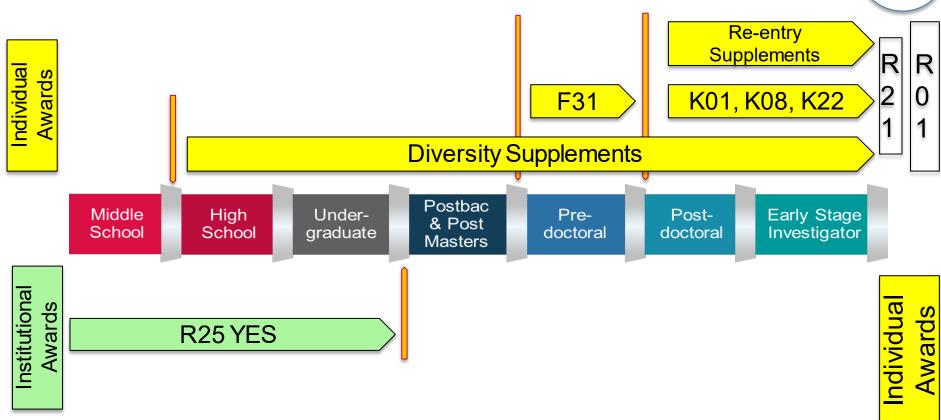

#### **CURE Funding Mechanisms**

#### Supplements within the CURE: Diversity and Re-Entry

- Provide additional funding to currently active NIH grants (parent grants) to support research experiences of trainees
- Parent grant must have at least two years of active status at the time of supplement application
- Application receipt: Oct 1 Dec 1 and Feb 1 Mar 31
- A bridge for candidates to progress to the next academic/career level
- Any questions -

Contact
Samson Gebreab, PhD
Samson.Gebreab@nih.gov

# Research Supplements to Promote Diversity in Health-Related Research (PA-21-071, Diversity Supplements)

- Candidate must be US citizen, non-citizen nationals or permanent residents, and from underrepresented populations: race/ethnicity, disability, disadvantaged background
- https://grants.nih.gov/grants/guide/pa-files/PA-21-071.html
- Diversity Supplements: <a href="http://www.cancer.gov/about-nci/organization/crchd/diversity-training/cure/DSGuidelines">http://www.cancer.gov/about-nci/organization/crchd/diversity-training/cure/DSGuidelines</a>

## Diversity Supplements: Special Eligibility Criteria for Graduate Students and Postdoctoral Fellows

- No concurrent PHS support for graduate student or postdoctoral fellow candidate at the time of application:
  - Cannot be supported by parent grant
  - > If coming off of institutional training grant, need letter from institution
- AFTER application submission:
  - Can be supported by the parent grant at the recipient's own risk, pending funding decision of supplement application

# Research Supplements to Promote Re-Entry into Biomedical and Behavioral Research Careers (PA-18-592, Re-Entry Supplements)

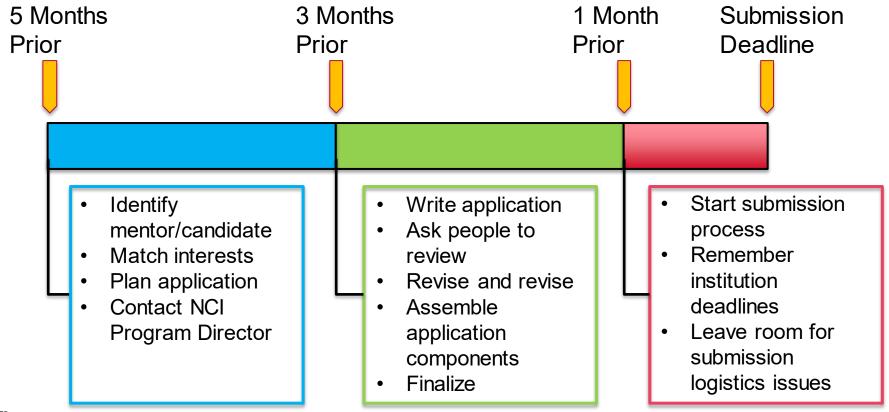

- Candidate must be US citizen, non-citizen nationals or permanent residents, but does not need to be from underrepresented populations
- Candidate must have been on hiatus from research for 1-8 years;
   must be postdoctoral fellow or faculty before hiatus
- https://grants.nih.gov/grants/guide/pa-files/PA-18-592.html
- http://www.cancer.gov/about-nci/organization/crchd/diversitytraining/cure/ReEntryGuidelines

### What Do We Look for in a Supplement Application?

Candidate	Mentoring and Career Development Plan	Research Plan
<ul> <li>Motivation</li> <li>Accomplishments</li> <li>Career goals</li> <li>Eligibility statement</li> </ul>	<ul> <li>Scientific proficiency and mentoring expertise of mentor(s)</li> <li>Defined role(s) and commitment of mentor(s)</li> <li>Training of career skills</li> <li>Clear benchmarks</li> <li>Candidate-specific plans</li> </ul>	<ul> <li>Relevancy to Parent Grant project</li> <li>Scientific impact on Parent Grant project</li> <li>Research design and feasibility</li> <li>Alignment with candidate's career goals</li> </ul>

### Suggested Timeline for Preparing a Supplement Application

#### Basic Cancer Health Disparities (CHD) Research Grants (R21 & R01)

#### Important collaboration between DCB and CRCHD

Science: Mechanistic studies that investigate biological/genetic

basis of CHD

Eligibility: Open to any qualified researcher

Research project: Basic cancer disparities research, focus on

racial/ethnic disparities

Mechanism	Details
Exploratory/Developmental Grants Program for Basic Research in Cancer Health Disparities (R21)  (https://grants.nih.gov/grants/guide/pa-files/par-18-655.html)	<ul> <li>Pilot and feasibility studies</li> <li>No preliminary data required but encouraged</li> <li>Budget: Direct Cost for 2 years ≤ \$275k; ≤ \$200k per year.</li> <li>Due date: February 18, 2021</li> </ul>
Basic Research in Cancer Health Disparities (R01) (https://grants.nih.gov/grants/guide/pa-files/par-18-654.html)	<ul> <li>Full project grant</li> <li>Preliminary data required</li> <li>Budget: No limit, but need to reflect the actual needs of the proposed project</li> <li>Due date: February 8, 2021</li> </ul>

#### Cancer Health Disparities Research Grant Examples

- Consequences and mechanism of aberrant splicing in African American prostate cancer disparities (R01)
- Biological implications of breast cancer protective variants in Latin American women with high Indigenous American ancestry (R01)
- Targeting CRLF2 and Ikaros Alterations to Reduce Health Disparities in Childhood Leukemia (R01)
- Diet modulation of bacterial sulfur & bile acid metabolism and colon cancer risk (R01)
- Modulation of host intrinsic immunity to reduce prostate cancer disparity (R01)
- Inter-relationship between microbiota diversity, obesity and race in endometrial cancer (R21)
- Stress Inflammation Mechanisms of Survivorship Disparities Experienced by Hispanic Women After Breast Cancer (R21)
- Racial Disparity of microRNA in Hepatitis C Virus Mediated Hepatocellular Carcinoma (R21)

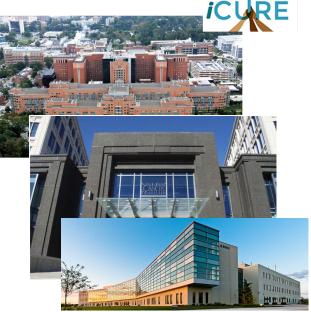

Intramural CURE (iCURE) – Research Experiences at NCI

 Mentored research experiences on NCI campuses in Bethesda, Shady Grove (Rockville) and Frederick, Maryland

- Supports **postbacs** (1 year), **graduate students** (2 years) and **postdocs** (3 years)
- Applications open now: Oct 15, 2020 Jan 15, 2021
   https://www.cancer.gov/about-nci/organization/crchd/diversity-training/icure
- Centralized review and program-facilitated matches for scholars to PIs in NCI Intramural Research Program
